## An established part of our programme for 20 years: driving pleasure retrofitted

A Porsche stands for enjoyment at the wheel, sports car emotions, unmistakable design and, of course, impressive performance. As well as your idea of how this should be expressed. Visually, tangibly and audibly. In short: how it can best fit in with you and your activities – 365 days a year.

This is what Porsche Tequipment has been offering for 20 years with its high-quality

products. Helping to turn a sports car into a sports car that is specifically adapted to your life. Whatever your plans.

Right from the start, Porsche Tequipment products have to meet the same standards as our vehicles: developed, tested and inspected in Weissach. By the same Porsche engineers and designers responsible for creating each model.

Conceived with the complete vehicle in mind and tailored to your particular Porsche. The result: a range of exceptional products with which you can refine your Porsche to suit your own individual requirements. Fitted after delivery. With no fuss. And, above all, with typical Porsche quality.

With your Porsche, you've already made your dream come true. Now it's time to live it. You will find the relevant accessories from Porsche Tequipment on the following pages.

### Sports exhaust system<sup>1</sup>

The distinctive 911 sound is further enhanced by the sports exhaust system. During normal road driving, the output remains robust. However, during performance use, it changes to a distinctively more aggressive tone. The specially designed tailpipes are included.

<sup>1</sup> Please note that additional components may be required at an extra cost (see fitting and conversion instructions).

Sports tailpipes

911 Carrera GTS sports tailpipes

Gear lever without short shifter

Gear lever with short shifter

**Sports tailpipes**

These stainless steel, nanocoated tailpipes give the rear of your 911 a more dynamic look. The additional nanocoating makes them easier to clean and enhances the sheen.

**911 Carrera GTS sports tailpipes<sup>1</sup>**

The tailpipe trims featuring the unique design of the 911 Carrera GTS can be retrofitted to your Porsche. To give your vehicle an even sportier appearance, also at the rear.

<sup>1</sup> Only in conjunction with sports exhaust system or Carrera S Powerkit.

**Short shifter**

This short-throw mechanism provides a faster, more accurate gearshift action and a more dynamic sports car experience. Compatible with all gear lever options.

**Sport mode retrofit package<sup>1</sup> (not shown)**

Can be activated at any time to provide an even sportier set-up for the engine and (in conjunction with PASM) for the chassis. If combined with PCM, the package includes

memory functions for lights, wipers, air conditioning and door locks. If combined with PDK, it features the Launch Control (racing start) function and the motorsport-derived gearshift strategy.

<sup>1</sup> The control panel in the centre console must be ordered separately. In conjunction with PCM with an optional finish, the retrofitted control panel comes in the standard finish.
